

STUDENT JOB SHADOW PROGRAM

Need a hand? These students want to help!

MCA-I Chapter 44 and area colleges have teamed up to link top video production students with working professionals in an ongoing, one-day **Job Shadow Program**. When you need an extra pair of hands for a short job (1-2 days), call on these advanced production students.

Win/Win

The **Job Shadow Program** is a win for everyone involved. Students will gain valuable experience volunteering with various media professionals, learning the ropes and making potential job contacts. Working professionals have access to up-and-coming talent in the Valley, hand-picked by their instructors as reliable, dedicated, and highly skilled people.

How It Works

When you have a short job call any of the **students** listed below to arrange a Job Shadow day. Print the Job Shadow Waiver, and have your student sign it when he/she arrives on the job. This waiver releases MCA-I and you from potential liability. The students understand that this is a *volunteer* opportunity.
